

Invitation

China-EU Scientists Forum of Bio-based & Biodegradable materials Forum and International Plastic Ban Industry Exhibition

Dear Sir/Madam :

"China-EU Scientists Forum of Bio-based & Biodegradable materials Forum" will be held in Shenzhen, Guangdong Province on March 9th and 10th. We sincerely invite you to attend the forum. More than 1000 people will attend the meeting and 100 exhibitors will display the most advanced bio-based & biodegradable plastics, products and equipment. The topic of this forum is around the technology and market prospects of biobased&biodegradable materials (PLA、PHA、PBAT、PBS and straw refinery ect) , especially the opportunity carbon-neutral brings .

The sponsor

Institute of Biodegradable Materials

TK biobased materials

Time of the forum

March 9th and 10th, 2022

Venue of the forum

The COLI Hotel Shenzhen

Agenda of the forum

Time : March 9th

General Forum: China-EU Scientists Forum of Bio-based & Biodegradable materials Forum

Guest	Content
Shi Dinghuan , Former Secretary-General of the Ministry of Science and Technology, State Council Counselor	Dual-Carbon Strategy
Zhang Liqun, Vice President of Beijing University of Chemical Technology	Bio-based Elastomers
Guo Baohua, professor at Tsinghua University	Synthesis trend of PBS-like degradable plastics
Meng Yuezhong, a professor at Sun Yat-sen University	Application Technology of PPC-X Degradable Plastics
Chen Guoqiang, professor of Tsinghua University	Bio-based and biodegradable material PHA
Tianjin Institute of Industrial Biology, Chinese Academy of Sciences	CO2 synthetic starch
Feng Chao, Adjunct Professor and Doctoral Supervisor, Jilin University	Research on the application strategy of PPC in the whole industry chain construction

Liu Xiu, Chairman of Kasai Biotechnology	Application technology of biobased nylon
Li Jianjun, Vice Chairman of Kingfa Technology	Bioplastics Market Prospects
Shanghai Jiaokang Technology Co., Ltd.	Back-end composting of degradable plastic products
Lunch	
resident of the European Bioplastics Association , Francois de Bie	Appeal to the EU to lift the ban on PHA/PLA bioplastics
Dcotor Ramani , American President of the American Biodegradable Plastics Association	How biodegradable products enter the US market
Novamont S.p.A. , Alberto	One-stop solution for biodegradable plastic speedpost bags
Genomatica	Biobased BDO and other blocks
Neste	Biodegradable packaging application program
Tea break	
Denmark Lego	Development and application of biological materials in toys
Basf	Chinese market strategy and prospect of biodegradable plastics

Time : March 10th

Sub-forum 1: International Bio-based Materials Technology and Industry Forum

Guest	Content
Yu Long, professor of South China University of Technology	Starch materials
Yu Muhuo, professor of Donghua University	biodegradable fiber
Zhao Guang, professor of Shandong University	Succinate biosynthesis for efficient CO fixation
Zhai Wentao, Professor of Sun Yat-Sen University	PLA biodegradable materials foam technology
Jiang Pingping, professor of Jiangnan University	Bio-based plasticizers
Dr. Xu Yang, Institute of Advanced Research, Chinese University of Science and Technology	Bio-based furan polyester PEF
Cui Qiu, Qingdao Institute of Bioenergy and Process, Chinese Academy of Sciences	Innovative technology of straw enzymatic hydrolysis and saccharification
Chen Jishuang, Professor of Nanjing University of Technology	The value of straw biomass resources under the background of carbon neutrality and degradability
Shandong Landian Biological Company	Bio-based succinic acid
Context	The application of PHA bioplastic long

	plastics
Ruud Rouleaux , Cheonan Biological	Design and application development of PHA raw and auxiliary materials

Time : March 10th
Sub-forum 2: International Degradable Materials and Plastic Ban Alternatives
Industry Forum

Guest	Content
Hainan Ecological Environment Department	Hainan Plastic Ban Experience Sharing
Mi Qinghua , Professor from Shandong Agricultural University	Agricultural film
Chen Peng, Ningbo Institute of Chinese Academy of Sciences	biodegradable fiber
Huang Jian , Kingfa Technology	European degradation market strategy
Total Corbion Energies	High temperature resistant and durable applications of PLA bioplastics
PTT-MCC	The application of PBS bioplastic
Biotech (German)	Starch modified PBAT bioplastics
OWS corporation	End treatment of biodegradable plastics (industrial compost)
